**DETAILS:**

- 2.1 On 01-31-2001, writer and BOYD met with State District Judge James WILSON at his office and reviewed several files that he had received from the Tarrant County Community Correctional Facility (boot camp) these were medical files and copies of statements. Writer and BOYD already had copies of these files and left them with Judge WILSON. On 02-01-2001, writer and BOYD met with Detective HARGIS who advised that he had a statement from Justin PROPPS (EXHIBIT# 1.46) who was a trainee at the boot camp during the same time ALEXANDER was there and has been released. HARGIS also stated that he had spoken to former Drill Instructor Edna SMITH, and that she had seen ALEXANDER on the 6th of January at the boot camp. HARGIS also stated that SMITH had been investigated for tying a rope around one of the trainees neck at the boot camp, but stated that the case was unfounded.
- 2.2 Writer and BOYD traveled to the boot camp and interviewed Tarrant County Probation Supervisor Ken BARNES. BARNES had contact with ALEXANDER on the 4th of January. BARNES provided a memo that he had written to BARBERINA on the 9th of January (EXHIBIT #1.51). BARNES stated that he would not speak with investigators because he (BARNES) had retained an attorney and was told not to answer any questions. BARNES stated that State District Judge Sharon WILSON does not like him and that he has to protect himself. In BARNES statement, he states that on the 7th of January he went to the boot camp and did see ALEXANDER with his face in his hands and he (ALEXANDER) was crying. BARNES inquired as to what was wrong and ALEXANDER told him that he was not feeling well and was having trouble breathing. BARNES went and informed Captain CLAY of ALEXANDER'S condition and CLAY stated that he had been in contact with Nurse REYES and had informed her of ALEXANDERS condition.
- 2.3 The following trainees were interviewed on 01-31-2001 CATE, statement # 1.2 REIBER, statement 1.3 LEWIS statement # 1.4 BURNS statement # 1.5 Nguyen statement # 1.6, and THOMPSON statement # 1.7. The statements that they gave to CSC were coabored and verified that they were true and correct. On 02-02-2001 writer and BOYD met with NOONKESTER who advised that Kimberly CALLOWAY, who is the former facility administrator at the Mansfield Boot Camp wanted to speak with the Rangers about CSC. Also on 02-02-2001, writer and BOYD interviewed Michele UFKES (statement # 1.1) who is a probation officer for Tarrant County and a former drill instructor at the boot camp. UFKES stated that she observed ALEXANDER on 01-04-2001 in class (UFKES teaches Anger Management) ALEXANDER was coughing and sniffing during the class. UFKES stated that ALEXANDER was nonresponsive and he "looked like crap ". One of the other trainees stated that he (ALEXANDER) does not feel good. UFKES went on to say that the procedures have changed since she was a drill instructor. When she was a drill instructor, the policy was to put in a request to see the nurse and she would see you the next day. Now you have to go to pill call 3 times a day for 3 days. UFKES stated that the policy may say one thing, but that is not the practice. UFKES also stated that the drill instructors demean the trainees and do not treat them well and are not interested in the well being of the trainees.
- 2.4 On 02-05-2001, writer and BOYD traveled to Bryan, Texas and met Bill TURNER who has been assigned as the special prosecutor for this case. TURNER was brought current on the investigation and information. TURNER requested that a doctor be contacted to review the medical file on ALEXANDER and also that he would contact STRICKLAND to have personnel files for CSC employees made available to investigators through TATE. Writer and BOYD traveled to Austin and met with members of the Texas Nursing board to obtain information on Nurse REYES' employment history. The nursing board advised without specific historical information a search could not be done. The Nursing Board advised that they were conducting an investigation into the incident at the boot camp based on a complaint that had been received against Nurse REYES. On 02-06-2001, writer and BOYD met with Investigator Sharon PEASE at the Texas Medical Board in Austin to obtain a copy of her report on her findings from 01-26-2001 at the boot camp. Writer

and BOYD were informed that an investigation had been initiated against Dr. Samuel Cornish LEE. The investigation alleges practice inconsistent with public health and welfare. Section 164.051(a)(6) More specifically related to NEGLIGENCE ASSESSMENT AND CARE OF BRYAN ALEXANDER. Writer and BOYD contacted TATE and advised him that a copy of CSC employee files were needed and TATE requested the names of the employees and stated that he would have them ready tomorrow for pick up. On 02-07-01, writer and BOYD met with District Judge WILSON and arranged to have the remaining probationers that are not in the boot camp be brought to the probation office next week to be interviewed and WILSON stated that he would arrange it. Investigators traveled to Mansfield to the boot camp and met with TATE. TATE advised that he did not have the records ready because he had been advised by CSC Attorney Jack STRICKLAND not to make the records available. Writer and BOYD contacted TURNER and requested grand jury subpoenas for the employee records. Subpoenas were issued and served on TATE at the boot camp. Later on 02-07-2001, TATE advised that based on advice from STRICKLAND that he was not going to be able to comply with the subpoena.

- 2.5 On 02-07-01, writer and BOYD interviewed former Facility Administrator Kimberly CALLOWAY, at the Mansfield Police Department. CALLOWAY advised that the policy for medical treatment had changed since she had left the unit. CALLOWAY stated that she had been in contact with REYES and REYES had indicated that she was unhappy working at the unit. CALLOWAY stated that the unit was a little "Peyton Place" that "everybody was doing somebody". Writer and BOYD then met with Dr. Bernard McGOWEN who had reviewed ALEXANDER'S medical file from John Peter Smith Hospital. McGOWEN stated that in his medical opinion that as soon as ALEXANDER reported that he had been coughing up blood a chest Xray should have been done. Also that it would have been impossible for ALEXANDER'S lungs to have been clear on the 5th of January. McGOWEN stated that in his opinion for all practical purposes when ALEXANDER was admitted at the hospital he was already dead. McGOWEN stated that the only reason that a person coughs up blood is cancer or pneumonia because the lungs are being destroyed. Also that the medication that was given to ALEXANDER at the boot camp was useless against the type of pneumonia that ALEXANDER had. McGOWEN stated that had ALEXANDER had a chest Xray on the 3rd of January that for sure, ALEXANDER could have been saved. That on the 5th of January, ALEXANDER still had a 50/50 chance for survival. The bottom line according to McGOWEN is that a chest Xray would have alerted medical personnel to the seriousness of ALEXANDER'S condition and that any time a person is reporting coughing up blood a chest Xray is the prescribed procedure.
- 2.6 Writer and BOYD then traveled to Mansfield and met with Randy TATE to pick up the requested grand jury material. Upon arrival at the boot camp, TATE advised that after consulting with STRICKLAND that he would be unable to comply with the subpoena. Writer contacted TURNER and advised him of the situation. On 02-13-2001, writer and BOYD met with Randy TATE at the Mansfield Boot Camp and picked up the requested personnel files of Destry L CLAY, (EXHIBIT # 2.1) Rachel Ramsey, (EXHIBIT # 2.2) Knyvette REYES, (Exhibit # 2.4), Floyd PHARISS, (EXHIBIT # 2.3), Orlando LOPEZ, (EXHIBIT # 2.6) The medical file on Rachel MARTIN, (EXHIBIT # 2.5.) Physician contract with Dr. LEE dated 11-10-1999, (EXHIBIT # 1.67), and Grievance filed against Rachel RAMSEY, (EXHIBIT # 1.68) Grand Jury material located in Chapter 11.
- 2.7 On 02-13-2001, writer and BOYD met with State District Judge James WILSON and Judge Sherry HILL at the courthouse in Ft. Worth to discuss a location to hold interviews on next date. It was decided to conduct them at the Tarrant County Probation Office in Ft. Worth. On 02-14-2001, writer and BOYD interviewed several probationers and confirmed their previous written statements. Also interviewed was Corey BROTON and he presented a written statement detailing

his time that he spent with ALEXANDER on the way to the hospital and while in the hospital on the night of January 7th, 2001. This statement was given at CSC's request and was in addition to the statement given earlier by BROTON.

**SYNOPSIS:****3. 2/24/2001 Approved by RICHARD SWEANEY, LT., 3956 - 3/21/2001**

On 02-20-2001, writer and BOYD met with Bill TURNER in Bryan, Tx and updated him on the progress of the case. TURNER requested that several more witnesses be interviewed and other information be gathered. On 02-21-2001, writer and BOYD interviewed several guards at the Mansfield Boot Camp and met with Randy TATE. Also a meeting was held with State District Judge WILSON in Ft. Worth. On 02-22-2001, writer and BOYD served a subpoena on Randy TATE for personnel files for several employees and other guards were interviewed. Writer and BOYD traveled to Austin and met with members of the Texas Nursing Board and Medical Board. On 02-23 and 02-24-2001, a hearing was held in Austin by the Texas Nursing Board as to whether or not REYES would be allowed to retain her nursing license. On 03-02-01, The Texas Nursing Board suspended REYES nursing license indefinitely. A summary of the information, evidence, and reports of the events leading to the death of Bryan ALEXANDER are contained in this report.

**DETAILS:**

- 3.1** On 02-20-01, writer and BOYD met with Bill TURNER in Bryan, Tx. TURNER requested that guards Destry CLAY, Rachel RAMSEY, James JOHNSON and Walter WATERS be interviewed to verify their statements as given. On 02-21 01, Destry CLAY was interviewed and confirmed that he had given a written statement and identified that statement. CLAY stated that he was aware of the pill call policy that REYES had initiated by gathering all of the trainees together and telling them not to fill out a medical request until after going to pill call for three days. CLAY also stated that he was unaware of ALEXANDER'S condition prior to his arrival on 01-07-01 at the boot camp. Rachel RAMSEY who was one of ALEXANDER'S primary drill instructor's refused to be interviewed. RAMSEY stated that Attorney Jack STRICKLAND'S investigator advised her that she did not have to be interviewed without an attorney present.
- 3.2** On 02-22-01, a grand jury subpoena was served on facility administrator Randy TATE for REYES' application for employment, leave request, and resume. TATE did supply all of the requested items. On 02-22-01, James JOHNSON was interviewed and he also verified his written statement. JOHNSON also stated that he was aware that ALEXANDER had spit up blood because he saw it in the trash can. When he (JOHNSON) showed it to a supervisor, the supervisor stated

that he could not see it in the can. On 02-23,24-01 the Texas Nursing Board conducted a hearing on the charges that the board had levied against Nurse REYES. On 03-02-01, Judge Barbara MARQUADT issued an order finding that all (7) seven charges that had been alleged against REYES to be true and REYES' nursing license is to be suspended indefinitely.

- 3.3 After reviewing the evidence, information, reports and interviews the following has been determined. On 11-09-00, Bryan Dale ALEXANDER was assigned to the 4th platoon at the Mansfield Boot Camp which is operated by Correction Services Corporation (CSC). ALEXANDER was checked by Nurse REYES and cleared for participation in the boot camp physical exercise program. On 12-31-00, ALEXANDER became ill. Knowing and adhering to the pill call policy, he began taking Tylenol and Sudafed for 3 days, 3 times a day, before filling in a request to see the nurse. On 01-03-01, ALEXANDER had finished with the mandatory pill call policy and he filed a request to see Nurse REYES. ALEXANDER'S reason for wanting to see the nurse was "I caught the flu or something" and "the pills are not working". This request was not responded to. On 01-04-01, REYES was too busy to examine ALEXANDER because she was processing new inmates. ALEXANDER submitted another request to see REYES stating that he was "real weak" and "coughing up blood" and that his "throat hurts real bad". On this request REYES noted that ALEXANDER'S temperature was 101 degrees and that there was redness of the throat. REYES contacted Dr. LEE and informed him that ALEXANDER had strep throat and Dr. LEE prescribed 500mg of Penicillin for ALEXANDER and LEE called the prescription into a pharmacy. REYES started giving ALEXANDER Penicillin from some stock that was being kept at the unit in the pill room.
- 3.4 On 01-06-01, REYES was approached by ALEXANDER on the "Grinder" and ALEXANDER told REYES "I don't feel good". REYES told ALEXANDER to give the medication time to work. It was at this time on the Grinder that REYES started yelling at ALEXANDER that he was faking it and that she was going to write him up for lying about staff. REYES caused ALEXANDER to be intensively trained by Drill Instructor SMITH and LOPEZ. ALEXANDER'S condition continued to deteriorate through the evening. ALEXANDER had not been eating for several days, had lost weight and had been coughing up blood for at least 3 days at this point. On 01-07-01, ALEXANDER was no better and at 1:30pm Captain Destry CLAY came on duty at the boot camp and was informed of ALEXANDER'S condition. CLAY met with ALEXANDER and observed his condition and spoke with the other guards and was informed about ALEXANDER coughing up blood. CLAY contacted REYES at 2:00pm and REYES informed CLAY that she had seen ALEXANDER and that he should give the medication time to work. CLAY advised REYES of the coughing of blood and REYES wanted to know if CLAY had seen the blood. REYES advised CLAY to have ALEXANDER show him the blood the next time he coughed some up.
- 3.5 CLAY stated that he had contacted REYES again about 4:15pm and REYES advised CLAY that he could give ALEXANDER the medication that his father had brought to the unit at the 5:00pm pill call. CLAY personally went to the pill room to give ALEXANDER the medication that his father had brought but CLAY could not find it. ALEXANDER did not eat again and CLAY caused some soup and juice to be brought to ALEXANDER. CLAY again called REYES about 6:15pm and advised her that ALEXANDER had coughed up blood and had brought it to CLAY. REYES advised CLAY to put ALEXANDER on bed rest and that she would report to the facility to check on ALEXANDER. At 7:15pm REYES called the facility to check on ALEXANDER but did not come to the facility. At 8:50pm REYES arrived at the facility (6) six hours after she was initially contacted by CLAY about ALEXANDER'S condition and at 9:20 after giving ALEXANDER a examination, REYES ordered ALEXANDER taken to John Peter Smith Hospital for evaluation for strep throat.

- 3.6 Upon arrival at John Peter Smith Hospital, ALEXANDER was seen immediately and the report states that the patient was in "SEVERE RESPIRATORY DISTRESS" and was "breathing in the 50s ALEXANDER was intubated and taken to the Intensive Care Unit. The attending physician Dr. GRATTI, indicates that the patient was hypotensive. He was on intravenous fluids and was unable to urinate. His lungs started getting worse and his oxygenation worsened. ALEXANDER'S chest X-ray showed extreme signs of pneumonia ALEXANDER was placed on life support and his condition worsened as the day progressed. On 01-08-01, Dr. GRATTI advised ALEXANDER's parents that their son was on life support and would most likely expire. On 01-09-01, ALEXANDER was pronounced dead at 9:16am.

On 03-27-2001, writer and BOYD traveled to Miami, Florida and met with prosecutors in the Miami-Dade County Public Defender's office. Investigators met with Marie OSBORN and Bruce ROSENTHAL. Information was obtained about Correction Services Corporation (CSC) relative to this investigation. The Miami- Dade County Public Defender's office was instrumental in a case involving mistreatment of juvenile offenders placed in the care custody and control of CSC in Florida.

**DETAILS:**

- 4.1** On 03-27-2001, writer and BOYD traveled to Miami, Florida and met with prosecutors from the Miami- Dade County Public Defender's office. Investigators met with Marie OSBORN and Bruce ROSENTHAL.
- 4.2** OSBORN is the director of the Public Defender's Office Juvenile Division. OSBORN made investigators aware of several allegations leveled against Correction Services Corporation (CSC) during her investigation. The investigation stemmed from reports of misconduct of CSC against juveniles inmates. The inmates in question were intended by the juvenile system to be incarcerated in the minimum security facilities, however CSC subjected the individuals to MAXIMUM security measures. Some inmates were "hog-tied" and left to defecate on themselves while others were made to stay in cells that were intentionally wet down without any mattresses or covers. Also one inmate went undetected while on different occasions had cut his wrists and no one sought medical or mental help for the inmate.
- 4.3** OSBORN also related that during her investigation it was uncovered that CSC was billing the counties for education of the juveniles while not providing any educational services. OSBORN made copies of court transcripts available to investigators.
- 4.4** Investigators also met with Bruce ROSENTHAL, an appellate attorney for the public defender's office. ROSENTHAL discussed litigation that he was involved in against CSC. The litigation transpired in 1997 and stemmed from the same case that OSBORN had reported.

- 4.5 ROSENTHAL disclosed to investigators that the litigation he was involved with was primarily structural problems with CSC. ROSENTHAL stated that a company named "Eismore" had recently (1997) undergone a name change to become Correction Services Corporation. ROSENTHAL stated that Eismore had become involved in controversial practices concerning the handling of inmates housed in New Jersey. These allegations included providing drugs and sex for inmates. Eismore made a name change and began seeking contracts in Florida under the name of Correctional Services Corporation.
- 4.6 ROSENTHAL'S explanation of the structural problems with CSC were that CSC was now (1997) dealing with (13) thirteen to (14) fourteen year old inmates without any real experience in the area of juvenile detention. ROSENTHAL explained that the investigation into CSC showed that there was little or no training of guards. There was a lack of file information on inmates at the CSC facilities. In one incident reported to investigators, an inmate had several cuts on his arm and was misdiagnosed by the nurse as having ink marks on his arm.
- 4.7 ROSENTHAL also advised investigators that CSC had paid guards less than what was agreed to by the state. For example, the State of Florida agreed that a guard would be paid nineteen thousand a year and CSC took the nineteen thousand, but only paid seventeen thousand per year. Educational expenses were also provided to CSC for inmates, yet no educational services were given to the inmates.
- 4.8 According to both ROSENTHAL and OSBORN, the state of Florida eventually sent in an administrative "SWAT TEAM" to correct the unacceptable occurrences. Shortly after the actions taken by the public defender's office, CSC moved out of Florida and arrived in Texas in late part of 1997 and began their operation.
